

# NORDIC WORKING LIFE CONFERENCE (NWLC)

10-12 June 2020

The Changing Nature of Nordic Working Life  
Aalborg, Denmark

AALBORG UNIVERSITY  
DENMARK

[www.nwlc2020.aau.dk](http://www.nwlc2020.aau.dk)

## THE THEME

**The theme of the Nordic Working Life Conference (NWLC) 2020 is the changing nature of Nordic working life, labour markets, industrial relations and employment relationships.**

Around the world, Nordic labour markets are acclaimed for strong economic performance, social security, high equality, collective bargaining, job quality and high social trust. However, changes in the nature of work and modern capitalism are challenging and transforming the Nordic labour markets.

New technologies and digital work platforms change employment relationships and working conditions. Polarization and precarization of the labour market reduce income equality and social trust. Labour migration and new preferences challenge traditional collective bargaining systems.

The conference addresses among other things the history, evolution and sustainability of the Nordic models, the similarities and differences between the Nordic countries, how current challenges are handled and working life is transforming in the Nordic countries.
